To whom it may Concern:

XTO and its subsidiaries own and/or operates multiple existing SI RICE that are now subject to the 40 CFR Part 63 (Subpart ZZZZ) initial notice requirements. All sources affected will be shown to be in compliance with applicable limits of Carbon monoxide, formaldehyde, or other HAP emissions by October 19, 2013 as defined in the above regulation. All sources included in the attached list maintain federally enforceable limits at area source levels. Please refer to the attached matrix for the affected area sources and initial notice information.

I can be reached at 254-359-3059 in the event you have any questions.

Sincerely,

William J Payne
Sr. Environmental Technician
